

DRIVE AGAINST MALARIA

Update: December, 2008, Amsterdam

Michelin Cameroon support Drive Against Malaria

Michelin Cameroon has a strong sense of commitment to the Cameroonian population to help improve healthcare in the country. General Manager Michelin, David François says: “ In our company it is not only about tires. We are here to help each other. That’s evident.”

David Robertson, Julia Samuel, David François

Within the corporation's social responsibility programmes, as supporting handicapped children in Nkonsamba, School finance assistance for ISTD (technologies et du design industriel) studies, finding solutions for tree diseases and subsidise Nature Park Boubanjida and now, by supporting Drive Against Malaria, malaria prevention has been integrated in their trust programmes.

For DAM the donation of free tyres is important due to the priority in prevention of malaria in rural areas and the disastrous reach of the mountains villages during the rains.

During the 3-annual "Salon International De l'Entreprise", organized at the Palais des Congres, in the capital city Yaoundé, de collaboration between Michelin and DAM was acknowledged.■

Drive Against Malaria in 2008
